

## **TemPac dieline template: 4 in x 2 in (across the web x along the web)**

Dieline (solid, spot color "Dieline"): the cut line, with a 1/8 in corner radius.

Keep it on its own layer. Do not move it, delete it or use its color in your art.

Bleed (outer dashed line): run backgrounds 1/16 in past the dieline.

Safe zone (inner dashed line): keep text and logos 1/16 in inside the dieline.

Artwork: CMYK color mode, images at 300 ppi at final size, fonts converted to outlines.

Put your art on the Artwork layer. Full guidelines: [tempac.net/artwork](http://tempac.net/artwork)
